| 8:00  | Field Demonstrations                                                 | Drs. Mark Siemens, Bill McCloskey & Pedro Andrade-Sanchez  
Precision and In-Row Cultivating Technologies for Improved Weed Control in Cotton |
| 8:45  | Field Demonstrations                                                 | Dr. Pedro Andrade-Sanchez                                                                            
Evaluation of Precision Planting Technologies in Cotton |
| 9:15  | Indoor Presentations                                                 | Dr. Peter Ellsworth, Ms. Isadora Bordini, Ms. Naomi Pier & Dr. S. Naranjo  
Effects of New Cotton Insecticides on Target and Beneficial Insects & New Predator Thresholds |
| 9:45  | Break                                                                |                                                                                                       |
| 10:00 | Indoor Presentations                                                 | Dr. Jourdan Bell  
Texas A&M AgriLife  
The Impact of Limited Water on Silage Production |
| 10:45 | Indoor Presentations                                                 | Dr. Paul Brown  
The New Silage Development Advisories and Agricultural Water: Current Status and Probability of Shortage |
| 11:15 | Indoor Presentations                                                 | Dr. Ayman Mostafa  
Management of Summer Forage Pests |
| 11:45 | Industry Updates                                                     |                                                                                                       |
| 12:15 | Lunch Discussion of Pest and Crop Management in Arizona             |                                                                                                       |
